Vibrant is accredited to provide Health & Safety courses and International Certifications to our clients and to provide Inspection services of Equipment & Structures.

VIBRANT is an ISO 9001 certified company based in Doha with wide expertise in Training , Inspection and Consultancy services.

Vibrant provides total training solutions developed to meet the needs of each customer. We believe, excellence in business can be achieved only through customer satisfaction. Working towards this goal, our prime effort shall be to identify and understand the customer need and specification.

Each year, Vibrant endeavours to become the most sought-out training provider due to its emphasis in providing only the highest quality standards in training. Thus we are setting new benchmarks in safety standards everyday.

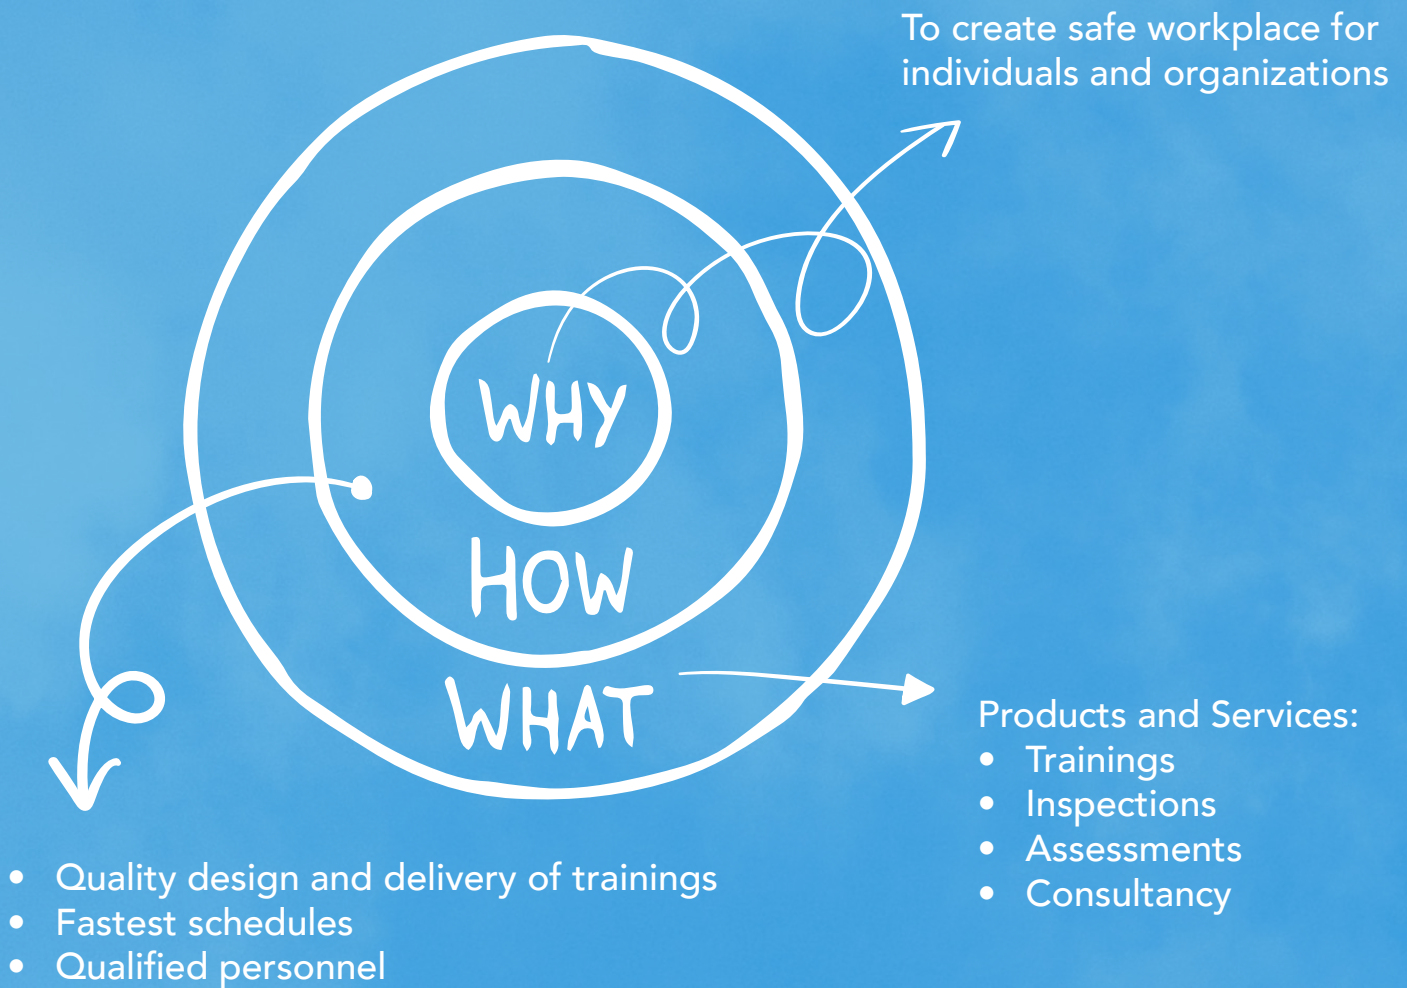

Vibrant is involved in all major projects in Qatar, including

- Qatar Rail
- New Port Project,
- Lusail City,
- FIFA WorldCup Stadiums,
- Express Highway and LRDP projects
- Msherieb Downtown Project
- Hamad International Airport
- Various QEWC-Kahramaa projects
- Telecommunication projects
- North Field Expansion project

Our GOLDEN CIRCLE

Timeline

Founded in May 2012

First major contract to conduct training for 17,000 delegates at Msheireb Downtown

Founded separate business vertical to provide inspection services

Became member of LEEA

2012

2013

Started projects in New Port Project (Present Hamad Port)

2014

2016

Direct accreditation from IOSH

**more than a decade of
experience**

**major approvals including
Ashghal**

**120+ courses and
certifications**

**250,000+ candidates
trained**

**300,000+ manhours of
inspection completed**

**1,500,000+ manhours of
training completed**

Rebranded company with
present outlook

Became a training member of
IPAF

Added yet another service
to provide Management
Consultancy

Approved training body of
PASMA

2017

2018

2020

2022

Approved by Ashghal to provide
services

Celebrated 10 years with First HSE
Conclave

Approved as training provider by ILM
Approved to provide services in NFXP

INSTITUTION OF OCCUPATIONAL SAFETY AND HEALTH (IOSH)

Institution of Occupational Safety and Health (IOSH) is a Chartered body and leading membership organisation for safety and health professionals.

IOSH WORKING SAFELY

IOSH Working Safely course is designed specifically to train employees from a wide range of back- grounds of the basic principles of health and safety in the workplace. The course covers the fundamentals of working safely especially the importance of individual responsibilities when it comes to work- place accidents.

Duration: 1 day

IOSH MANAGING SAFELY

IOSH Managing Safely course is designed for non-health and safety personnel who have to manage risk and resources. It is also suitable for those with responsibility for health & safety. It is designed to provide an overview on health & safety based on risk-based approach to prevent accidents in the workplace.

Duration: 4 days

FIRE

FIRE WATCH

The Fire Watch training course will ensure that all employees are suitably trained in the safe use of Fire extinguishers and their inspection requirements.

FIRE WARDEN

This qualification is aimed at all staff, where a basic understanding of fire safety is required. Learners gaining this qualification will know that fire safety is the responsibility of everyone in the workplace and will recognise their contribution in the prevention of fires and fire spread.

FIRE MARSHAL

This qualification has been developed for anyone involved in the management of fire safety in the workplace. This could include managers, supervisors, team leaders, fire wardens (marshals) and staff working in any area where there is a potential risk of fire.

A background image showing a first aid training session. Two people in blue uniforms are performing CPR on a person lying on a mat. One person is on the chest, and the other is on the side, both with their hands on the person's chest. The person being trained is wearing a blue shirt and dark pants. The background is a light-colored wall.

FIRST AID

EMERGENCY FIRST AID AT WORK

This qualification has been developed for those already working, or preparing to work, in the industry and who have been identified in the company's first aid risk assessment as being required to provide first aid in the workplace.

ADVANCE FIRST AID AT WORK AND THE SAFE USE OF AED

Qualification includes roles and responsibilities of a first aider, assessing incidents, managing casualties as well as knowing how to safely use an AED

BLS AND THE SAFE USE OF AN AED

This qualification is recommended for learners who wish to be able to manage an unresponsive casualty who is breathing normally, and know how to safely use an automated external defibrillator.

PAEDIATRIC FIRST AID

This qualification is recommended for learners already working or preparing to work in the industry and to provide candidates, who are responsible for the welfare of infants and children, with the necessary knowledge, understanding and skills to support first aid and the use of a defibrillator in the workplace.

LIFTING

A red forklift is shown lifting a wooden pallet. The forklift's mast and carriage are visible, with the pallet resting on the forks. The background is a clear, bright blue sky. The forklift is positioned on the right side of the frame, with the pallet being lifted towards the center.

RIGGING AND SLINGING

To train delegates in the principles that support the correct slinging of different types of loads, in the safety precautions to be taken whilst working with rigging equipment, and in the inspection and use of all associated equipment.

LIFTING SUPERVISOR

This course covers the functions required to be undertaken by a Lifting Supervisor to meet the minimum formal training and assessment standards for the purposes of certification through Workplace Health and Safety.

LIFTING OPERATIONS - APPOINTED PERSON

This course is suitable for supervisors and managers with responsibility for lifting operations. This course will give you an understanding of the appointed person's responsibilities and how to fulfil them.

SCAFFOLDING

SCAFFOLD ERECTION AND DISMANTLING

This course is meant for anyone who is involved in practical Hands-On erection and dismantling of several types of basic frame, tube & coupler, and "system" scaffolds.

SCAFFOLD SUPERVISOR

In accordance with the new standard – all supervisors who erect frame, system or tube and coupler supported scaffolds must be certified. This course covers the safe erecting, use, inspection, modification and dismantling of supported base scaffolds.

SCAFFOLD INSPECTOR

All international standards and QCS regulations require that all scaffolds are inspected by a certified "Inspector". This course covers the complete inspection procedures as per international standards.

SCAFFOLD SAFETY AWARENESS

Awareness course is for anyone who is working on or around scaffold. This course can be conducted for delegates in any level and serves its purpose to educate about scaffold safety.

CISRS OSTS COURSES

OSTS LEVEL 1

Course objective is to provide delegates with the knowledge and skills to enable them to erect, alter and dismantle basic scaffolding structures in traditional tube and fitting and common system scaffold types.

OSTS LEVEL 2

Course objective is to provide delegates with the knowledge and skills to enable them to erect, alter and dismantle scaffolding structures of an intermediate complexity in traditional tube and fitting and common system scaffold types.

OSTS SCAFFOLDING SUPERVISOR

Course objective is to give the delegates such knowledge and skills to enable them to supervise, monitor, direct and instruct Scaffolders in scaffolding operations.

OSTS BASIC SCAFFOLD INSPECTOR

Course objective is to give the delegate such knowledge and skills to enable them to inspect basic scaffold structures and complete safety inspection reports.

TOWER FOR USERS

PASMA Towers for Users will equip you with the specialist knowledge you need to work safely with mobile access towers.

- How to safely assemble, dismantle, alter and move mobile access towers
- How to safely use mobile access towers
- How to inspect mobile access towers and identify hazards relating to their use
- What legislation, regulations and guidance are applicable to these towers

TOWER FOR MANAGERS

PASMA Towers for Managers will equip you with the specialist knowledge you need to keep your towers accident-free zones.

- Support your teams better on site
- Meet all your legal obligations and Inspect towers
- Identify different tower types

COMBINED LOW-LEVEL ACCESS AND TOWERS FOR USERS

ASMA Combined Low-Level Access and Towers for Users will equip you with the specialist knowledge you need to work safely with mobile access towers and low-level access equipment such as podiums.

- How to safely assemble, dismantle, alter and move this equipment
- How to safely use this equipment
- How to inspect this equipment and to identify hazards relating to their use
- What legislation, regulations and guidance are applicable to these towers

LOW-LEVEL ACCESS

ASMA Low-Level Access will equip you with the specialist knowledge you need to work safely with any low-level work platforms under 2.5 meters.

- How to safely assemble and dismantle low level access equipment
- How to safely use low level access equipment
- How to inspect low level access equipment
- How to identify hazards relating to their use
- What legislation, regulations and guidance are applicable to these towers

ECITB

The Engineering Construction Industry Training Board (ECITB) is the employer-led skills, standards and qualifications body for the development of the engineering construction workforce of Great Britain. An arms-length body of the UK Government, the ECITB reports to the Department for Education.

The ECITB works with employers and training providers to attract, develop and qualify the engineering construction workforce in a wide range of craft, technical and professional disciplines.

ECITB COURSES:

- Working in Low Risk Confined Spaces
- Supervising Excavation
- Flagman
- Working at Height
- Environmental Awareness
- Risk Assessment
- IHSP Foundation
- eLearning-IHSP Foundation

THIRD PARTY COURSES

All the below mentioned courses have been designed and developed as per international standards and considering QCS recommendations

SKILL-BASED COURSES:

- Site Safety Induction
- Electrical Safety
- Lock Out / Tag Out
- Hand & Power Tools Safety
- Welding / Hot Work Safety
- PPE Training
- H2S / BA
- Banksman/Flagman
- Working at Height
- Risk Assessment
- Ladder Safety
- Excavation Safety
- Abrasive Wheel
- Defensive Driving – Light
- Defensive Driving – Heavy
- Asbestos Awareness Training
- Spill Prevention & Control
- Safe Moving and Handling
- Manual Handling
- Permit To Work (PTW)
- Heat Stress
- Chemical Handling (COSHH)
- Ergonomics Safety
- Work Zone Traffic Management
- Temporary Works Coordinator

CONFINED SPACE COURSES:

- Confined Space Attendant / Hole Watcher
- Confined Space Entry
- Confined Space Supervisor
- Confined Space Assessor
- Authorised Gas Testing - AGT
- SCBA Training

EQUIPMENT TRAINING:

- Forklift Safety Training
- Manlift Operator Training
- Scissorlift Operator training
- Boomlift Operator training
- Mast Climber

RESPONSE / RESCUE:

- Spill Response Training
- Basic Emergency Response
- Emergency Response Training
- Working at Height Rescue
- Tower Crane Rescue
- Confined Space Rescue Training

LEAD AUDITOR COURSES

ISO 9001 : 2015 LEAD AUDITOR

Learn the principles and practices of effective quality management system audits compliant emphasizing your ability to conduct 2nd party assessments of suppliers and sub-contractors.

ISO 14001 : 2015 LEAD AUDITOR

The course is designed to equip the delegates with a basic understanding of the principles of environmental auditing and to furnish them with the knowledge, skills and techniques necessary to participate as a team member for environmental audits.

ISO 45001:2018

This requires organisations to review and continually improve their occupational health and safety performance. Organisations should conduct regular occupational health and safety audits.

ISO 22001:2018

This course provides delegates with the knowledge and skills required to perform first, second and third-party audits of food safety management systems against ISO 22000.

IMS AUDITOR TRAINING

This three-day course provides a detailed understanding of different standards and the knowledge and skills necessary to effectively implement an integrated management

FOOD SAFETY

FOOD SAFETY AWARENESS

This qualification has been principally developed to improve awareness of the importance of food safety in the catering and hospitality sectors and provides food handlers with the knowledge of how they can contribute to food safety.

FOOD SAFETY FOR SUPERVISORS

This qualification has been developed specifically to improve the food safety knowledge of supervisors, team leaders and line managers working in the catering industry. This includes those working in care.

FOOD SAFETY MANAGERS

This qualification has been developed specifically for managers working in a food or drink catering environment, whose job requires them to have some responsibility for food safety (and also possible responsibilities for an operational team)

HACCP TRAINING

This qualification has been developed for caterers and those in roles that involve handling food. Topics covered include the principles of HACCP, food safety management, the implementation of HACCP, hazards and controls, critical control points, critical limits and target levels, monitoring, corrective action and verification.

HACCP FOR SUPERVISORS

This qualification has been developed for those responsible for assisting in the development and maintenance of HACCP systems. It is also suitable for those owning/managing smaller food businesses. Topics covered include HACCP food safety-based management procedures, preliminary processes, the 7 principles of HACCP, legislation, allocating roles and responsibilities, hazards and risks, monitoring procedures, corrective actions, documentation and record keeping.

HACCP FOR MANAGERS

This qualification has been developed for those working at a management level in a catering business or who are members of a HACCP team. It is also useful for trainers,

INSPECTIONS & OPERATOR ASSESMENTS

Every client needs trusted independent inspection to ensure that both their legal obligations and the high standards that they expect to meet at every stage.

EQUIPMENTS

- Forklift
- Telehandler
- Loaders
- MEWPs
- Man Basket
- Material Basket
- Skip Unit
- Skid Loader
- Vacuum Lifting

ACCESSORIES

- Axle Stand
- Band Saw
- Body Harness
- Spreader Beams
- Lifting Beams
- Slings
- Shackles
- Bolts
- Chain Blocks
- Lever Blocks
- Hoists
- Turn Buckles
- Plate Clamps
- Ramps
- Loading Platform
- A-Frame Portable Lift
- Bottle Jack
- Holocaust Cutter
- Cable Drum Lifting Beam

CRANES

- Mobile Crane
- Tower Crane
- Gantry Crane

MACHINES

- Excavator
- Dumper
- Tipper
- Roller
- Shovel
- Cutting Machine
- Power Tools
- Concrete Mixer
- Concrete Pump
- Threading Machine
- Compactor
- Power Generator
- Glass Trolley
- Hydraulic Trolley Jack
- Band Saw
- Air compressor Tank
- Sweeping Machine
- Welding Machine
- Dewatering Pump

GENERAL

- Scaffold Inspection /Audit
- Site Inspection /Audit

OPERATOR ASSESSMENTS

- Crane Operator
- Forklift Operator
- Telehandler Operator
- Loader Operator
- Shovel Operator
- MEWP Operator
- Truck Operator
- Loader Operator
- Excavator Operator
- Tipper Operator
- Cutting Machine Operator
- Drilling Machine Operator
- Power Tools Operator
- Concrete Pump Operator
- Sweeping Machine Operator
- Electrician Assessment
- Welder Assessment

CONSULTANCY

Our areas of specialization also include CONSULTANCY SERVICES (Including Audits & Certification). Vibrant provides health and safety management solutions to enable organizations to be proactive and operate more efficiently.

Our consultancy team has considerable practical experience and specialist areas of knowledge.

ISO CONSULTANCY:

- Quality Management System- ISO 9001
- Environmental Management System - ISO 14001
- Occupational Health & Safety Management - ISO 45001
- Automotive Quality Management Systems - ISO/TS 16949 - IATF 16949
- Information Security Management System - ISO 27001
- Information Technology Service Management Systems - ISO 20000
- Food Safety Management System - ISO 22000
- Energy Management System - ISO 50001
- Corporate Responsibility System - SRM 8000
- Business Continuity Management - ISO 22301
- Aerospace sector Quality Management Systems - AS 9100
- Medical Devices Quality Management System - ISO 13485
- Integrated Management System - IMS

A full-page background image showing two men in a professional setting. The man on the left, with brown hair and a beard, wears a white button-down shirt and dark trousers. The man on the right, with grey hair, wears a blue blazer over a light blue shirt and dark trousers, holding a black folder. They are both smiling and looking at a tablet held by the man on the left. The background is a modern office with large windows and blue-tinted glass partitions.

FOOD SAFETY CONSULTANCY:

- Food Safety Audit
- HACCP Certification
- Food Safety - Gap Analysis

HSE CONSULTANCY:

- Work Site Risk Assessment
- Accident Investigation
- Height Safety Consultancy
- Fire Risk Assessment
- Emergency Evacuation Plans
- Industrial Hygiene Consultancy
- Gap Analysis
- Task based - Health Risk Assessment
- HSE Cold-eye Review
